Fire Rains Iowa Towns

Omaha, Neb., Jan. 26.—Pacific Jun-
ction, Iowa, has been wiped out by
flames. Scores of people are homeless
in the cold.The blaze originated in a small gro-
cery store from unknown cause, and
before it was brought under control
twenty-three buildings comprising the
main section of the place, had been
wiped out. Among the buildings de-
stroyed were the Pacific hotel, valued
at \$3,000, and the Odd Fellows' hall
of about the same value. Both struc-
tures were three stories in height.
The total loss is estimated at between
\$25,000 and \$30,000.The whole town is built of wood,
and the flames had an easy progress
from building to building under the
stimulus of a strong north wind. But
little of the contents of the buildings
were saved. No fatalities were report-
ed.

Railway Shops Burn

Plattsburgh, Neb., Jan. 26.—The
coach-shop of the Burlington & Mis-
souri railroad burned Monday night.
In the shop were six coaches, two of
which were Pullman cars. These were
totally destroyed. About seventy-five
men were employed in the coach-shop,
and all of them have lost their tools,
some of the kits being very expensive.
The total loss to the company is esti-
mated at \$130,000.George Fletcher, assistant foreman
in the freight shops, was found dead
near the planing-mill during the fire.
A slight abrasion was found over his
right eye, but no other injury was
found. The manner of his death is ob-
scure.

Firemen Are Badly Frozen.

men are suffering from being frozen
at a fire Monday morning. The injured
men are: Chief Granville Shepp, Frank
Buchanan, John Casey, Chat Taylor,
Ollie Hall, Grant Bisel, John Fahner.
The men worked from 2 to 5 o'clock
at the home of C. E. Wiley, and when
the fire was extinguished their clothes
had to be cut from their backs. Mrs.
Wiley, with her child in her arms,
was blinded by smoke, and stumbled
and fell downstairs. She clung to the
child, and both were dangerously in-
jured.

SUFFRAGISTS IN CONVENTION.

Southern Delegates Afraid to Brave the
Weather of Iowa.Des Moines, Iowa, Jan. 26.—The ar-
rival of delegates to the national con-
vention of the Woman's Suffrage as-
sociation indicates that the attendance
will be large. There will be few de-
legates from the southern states, be-
cause the women of that section of
the country think it would be danger-
ous to venture so far north at this sea-
son of the year. For this reason the
officers of the association have decided
to offer an amendment to the consti-
tution changing the date of the con-
vention from January to some time
early in the fall.One of the most important questions
which will come up before this meet-
ing is in regard to the future attitude
of the association in affiliation with
political parties in the states where
campaigns for equal suffrage are be-
ing carried on. It often occurs that
one party or the other will favor the
submission of the woman's suffrage
question to the people. In such cases
demands are made for partisan sup-
port.The leaders of the movement who
are here are confident of the success
of the cause in Oklahoma, Montana,
Oregon and New Mexico.

TREATY IS DEBATED.

Senate Committee on Foreign Relations
Discuss the Measure.Washington, Jan. 26.—The senate
committee on foreign relations Monday
had the arbitration treaty under discus-
sion, but the discussion was almost
wholly upon its bearing on the Nicar-
agua canal. The letter of Minister Ro-
driguez presented to the senate Friday,
in which the Nicaraguan government
protested against the present canal bill
before the senate, formed the basis of
discussion.Several senators seemed to think
the Nicaragua canal might be serious-
ly affected by the treaty and the deter-
mination of the committee will be to
go to the bottom of the question before
taking up other portions of the treaty.
Senator Morgan took an active part
in the discussion, being chairman of
the Nicaragua canal committee and in
charge of the bill before the senate.
length and with much earnestness.
His views were presented at some
length and with much earnestness.
The Alabama senator insisted that the
canal situation must be settled before
the treaty could be ratified.

COLD WAVE IS GENERAL.

No Indications of Relief Reported by
the Weather Bureau.Washington, Jan. 26.—The reports
received by the weather bureau show
the intense cold wave to be general
over the entire United States, and
there are no indications of a relief
within the next twenty-four hours.The temperature has fallen decided-
ly in the southern and middle Atlantic
states and it has risen slowly in the
Missouri and upper Mississippi valley
and over the greater portion of the
lake regions. It continues below zero
as far south as the Ohio valley and it
is below freezing on the Texas coast
and generally in the interior of the
gulf states.The indications are that generally
fair weather prevails to-day in the
central valleys and on the Atlantic
coast north of Florida. The tempera-
ture will continue low, but will rise
slowly in the states of the central and
upper Mississippi valley. It will be
much colder on the southern Atlantic
and east gulf coasts with freezing
weather in northern Florida Tuesday
night.

President-Elect McKinley Wants New
Tariff Inaugurated.Philadelphia, Jan. 26.—Congressman
John C. Sturtevant of Crawford county,
who will succeed Joseph C. Sibley in
the next congress, is in the city. He
said that he had called on President-
elect McKinley at his home in Canton
and that the latter had said: "I will
call a special session of congress on
March 15, and unless I change my
mind you may be in Washington by
that time. I desire to have my pro-
tective system inaugurated immedi-
ately upon my inauguration, and I want
a measure passed that will immediately
stimulate business and give idle men
work." Congressman Sturtevant said
further that no Pennsylvanian would
be in the McKinley cabinet.

Hired to Commit Murder.

Cincinnati, Jan. 26.—Ettore Fonta-
nori, a Tyrolean, was arrested yester-
day for murdering Mary Forpiana, an
Italian, and robbing her of \$1,800,
which represented the savings of forty
years from the proceeds of fruit vend-
ing. It is now learned that Enrico de
Bois, an Italian, laid the plans for the
robbery and hired Fontanori for \$300
to break open the old woman's chest.
De Bois was familiar with the pre-
mises. Fontanori did the job as directed,
turned over the money to De Bois and
the latter has escaped. Mrs. de Bois
to-day inquired at police headquarters
for her husband. Fontanori confessed.

No Combine in Utah.

Washington, Jan. 26.—"There has
been no agreement between the repub-
licans and our fellows," said Senator
Cannon of Utah, "on the matter of our
supporting a tariff bill in the next
congress. I have seen it reported that
the thing has been fixed up with us
to vote for the passage of a high pro-
tective tariff bill. But such is not the
fact. I am not at this time at liberty
to say what will be the action of the
silver forces regarding the passage of
the tariff bill. We await later develop-
ments."

CONGRESS CAN ACT

MR. TURPIE SAYS

SENATOR INSISTS THAT
PEOPLE ARE SUPREME.He Thinks the Authority of the Presi-
dent is Secondary—Gen. Weyler
Bitterly Denounced—Little Business
Transacted by the House—Capitol
News.Washington, Jan. 26.—In the Senate
Monday Mr. Turpie of Indiana charac-
terized Capt. Gen. Weyler as the
Herod of Havana, the murderer of wo-
men and children, and as the "inde-
scribably diminutive reptile." These
bitter words were incident to Mr. Tur-
pie's speech of two hours on the Cam-
eron Cuban resolution. Mr. Turpie
confined himself largely to a careful
analysis of the constitutional rights of
congress, his conclusion being that
congress, as representing the people,
had primary and paramount authority
over recognizing new governments.Recognition of a new government
might be made in several ways—by
sending a minister, by receiving a min-
ister, by proclamation or by treaty.
But in all cases it was the execution
of the President's ancillary power.
While the President's action was final
in such cases, yet his inaction was not,
and congress, after waiting a reason-
able time, could direct the President
to recognize a new government and
send a minister. Every line of the
constitution, said Mr. Turpie, leads up
to the supremacy of the people, as re-
presented by congress, and not to the
supremacy of the President.General Maceo was eulogized as a
hero whose memory would be honored
by the people of Cuba libre as the
American people honored the heroes
of revolutionary days. After 3
o'clock the day was devoted to eulo-
gies on the late ex-Speaker Charles F.
Crisp.Early in the day memorials were
presented from the presidential elec-
tors of Delaware, asking for a congres-
sional investigation of alleged fraud
and political irregularities in that
state. Mr. Chandler (Rep., N. H.) said
that it was his purpose to endeavor
"to devise means by which this whole-
sale larceny of states and of United
States senatorships shall be prevent-
ed."

IN THE HOUSE.

Mr. Johnston Asks for Reform of Bank-
and Currency Laws.Washington, Jan. 26.—After consum-
ing most of the time Monday in dis-
posing of District of Columbia busi-
ness, the house took up the Indian ap-
propriation bill and made fair progress
with it before the hour for adjourn-
ment was reached. The bill car-
rues current law, and \$246,265 more than
the current law, and \$246,265 more than the
estimates. Twenty of the seventy
pages of the bill were disposed of.The conference report on the immi-
gration bill was presented, and Mr.
Danford (Ohio), who has charge of it,
gave notice that he would call the
report up Wednesday.Mr. Johnston (rep., Ind.) read a
speech in favor of an early reform
of our banking and currency laws. He
described the depressed condition
which existed during the recent cam-
paign, and argued that unless the in-
coming Republican administration cor-
rected the evils it would be swept out
of power in 1900, and the country
would suffer loss and disaster which
it would take years to eradicate. He
insisted that those who believed the en-
actment of a protective tariff would re-
store prosperity would be disappointed.

Washington, Jan. 26.—The commit-

pression.

Balfour, replying to questions of Mr.
Field, member for the St. Patrick's di-

Patriots Rout a Spanish Force and
Take a Rich Prize.Key West, Fla., Jan. 26.—Another de-
feat for the Spanish is reported from
Pelanos in the southern part of Ha-
vana province.The place has 1,000 inhabitants, is

Lieut.-Col. Hernandez, in command of

"COMPLETELY PACIFIED."

How Spanish Cabinet Ministers Deceive
Their Countrymen.Washington, Jan. 26.—The almost
complete pacification of Havana and
Matanzas provinces, in the western
part of the island of Cuba, is an-
nounced in the following dispatch re-
ceived at the Spanish legation here
late last evening from the Spanish
minister of foreign affairs:"Weyler, at the head of fourteen bat-
talions, has repeatedly traversed the
provinces of Havana and Matanzas,
obliging the principal rebel leaders to
fly to Las Villas. Weyler considers
that now in Havana and Matanzas
there remain no nucleus of rebels or
organized bands to disperse, and that
both provinces may be considered as
almost completely pacified. The sugar
growers in these provinces are now
grinding cane without molestation."The officials of the delegation regard
the achievements of General Weyler
and the announcement of the foreign
affairs office as of great importance.
The center part of the island, they say,
has been in a state of pacification and
now that the western part has been
brought to a similar state, the rebels,
it is stated, are confined in their move-
ments to some of the eastern prov-
inces.Following close on this announce-
ment it is expected Premier Canovas
will promulgate the reforms for Cuba
voted by the cortes in 1895, but with-
held until the island shall have been
regarded as pacified to a degree war-
ranting their application.

Wants One More Cabinet Job.

Philadelphia, Pa., Jan. 26.—The sec-
ond annual convention of the National
Association of Manufacturers, which
opened in this city today promises to
be one of more than ordinary inter-

folio, to be known as the secretary of
manufactures, also promises to be in-
teresting. This report, it is said, will
show that, while the total agricultural
output of the United States up to the
last census was a little over \$3,000,000,
the manufactured products for the
same time amounted to nearly \$11,-
000,000,000.

"THE NANCY HANKS" TONIGHT

Florence Lillian Wickes and Others Are
In the Cast.

Ignacio Martinetti dances, sings
and with such ingeniousness is hon-
estly funny that the "Nancy Hanks"
the clever comedy which will be seen
at the Myers Grand tonight would be
worth going to see if there were no-
body else in the cast. Martinetti has

a splendid voice which he uses very
prettily indeed in the captivating
little ballad "La Paloma" and he can
spin around like a top when he
dances. Miss Anna Royd also sings
some very clever songs and she can
sing a certain kind of semi-riquet ditty
better than two thirds of the star
artists from Paris. The fact that
Florence Lillian Wickes is in the cast
also adds local interest. Miss Carrie
Radcliff is also a drawing card.

THE OVERFLOW OF LOCAL NEWS.

MANY CONDUCTORS GET VACATIONS

C. & N. W. ROAD MAKE CHANGES.

Plan of Retrenchment Owing to Slack Business Will Interfere With Several Knights of the Punch Running Into This City—New Order is Issued.

The Chicago & Northwestern railway company has made a number of changes in its train service out of Chicago and Milwaukee, whereby several conductors are transferred from runs they have had for fifteen or twenty years. The trains between Chicago and Green Bay, on what were known as the "long runs," which were run through Milwaukee during the night and Janesville during the day, formerly had five conductors to make the trips. They were Crowley, James, Stewart, Smith and Quayle. The change puts Crowley and Quayle on nights between Chicago and Green Bay, while Stewart and Smith will have the day run between Chicago and Fond du Lac by way of Janesville. Conductor James is laid off. Trains Nos. 5 and 10, which were run for years between Milwaukee and Fond du Lac by Conductor Du Pae, will hereafter be run by five conductors, O'Brien, Jacks, Deiter, Dixon and Lamphear, who will take it through to Green Bay. Conductor Du Pae has been laid off. He does not know where he will be sent when reinstated. He resides at Fond du Lac, but will spend the remainder of the winter in the south.

The Chicago & Northwestern company has also reduced the number of brakemen on some of the runs. The change went into effect yesterday, and is ascribed to light business and part of a plan of retrenchment. It is said that it is also intended to reduce the number of freight train crews on several divisions.

A NEW DISCOVERY BY THE SHAKERS

For more than a hundred years the Mount Lebanon Shakers have studied the cultivation of medicinal plants and sought to extract from them their healing essences. Their labor has not been spent in vain. They have made a discovery that will prove a blessing to mankind. It consists of a cordial that causes immediate relief in cases of indigestion. The importance of this discovery will be apparent when we realize that nearly nine-tenths of our suffering are caused by dyspepsia or indigestion. Nearly every person you meet has this digestive trouble in some of its varied forms: sick headache, distress after eating, pain and fullness in the chest after eating, palpitation of the heart, etc., are but symptoms of indigestion. To relieve these sufferings has been the study of the Shakers, and they have succeeded. The reason the Shaker Digestive Cordial has such an immediate and salutary effect is that it causes the food eaten to be digested, for it is undigested food that causes the distress. The Cordial causes the food to be digested before there is time for it to ferment and sour on the stomach. When the food is so digested it gives strength and vigor to the feeble body, makes one feel bright and cheerful, and makes one gain in flesh.

The Digestive Cordial is so prompt in its action that the very first dose will have a perceptibly favorable result. It gives immediate relief.

Every druggist has been sent a supply of our handsome Donkey Puzzle Books, and a copy may be had for the asking. It tells all about the Cordial as well as Laxo's, the new castor oil.

Try a twenty-five cent bottle of Digestive Cordial and see what it will do for you.

LONGING FOR THE FIELDS.

Beyond the realm of barter and of peace;
Beyond the closeness of a social clime
Where, like an eager bard enchained by rhyme,
One's freer spirit oft receives offense;
Beyond brick walls and dreary chimneys,
Where the sweat of industry exhales in grime;
Beyond the purities of disease and crime
And haunts where honest lives grow hard and tense—
Beyond all these in what tranquillity,
Glad as the skies that over them do rest,
The fields upyield their new mown fragrance
To winds refreshed on some clear stream's cool breast
Or laden with wood scents and minstrelsy
Of the musicians of the bough and nest!
—William Struthers in Home Journal

Chic. Pa., "Herald." Richard Vessel reports One Minute Cough Cure the greatest success of medical science. He told us that it cured his whole family of terrible coughs and colds, after all other so called cures had failed entirely. Mr. Vessel said it assisted his children through a very bad siege of measles. One Minute Cough Cure makes expectoration very easy and rapid. C. D. Stevens.

FAIR IS PUT OVER

TO MARCH 2, 3 AND 4

STATE OFFICERS DO ALL IN THEIR POWER.

Every Concession as to Dates and Attractions Will Be Made By the Attitude Management—Dairy Feature To Be Made Prominent in the Program.

March 23 and 24 will be the dates of the Midwinter fair, and the Lowell store will see such a display of grain, produce and culinary displays as will surpass even last winter's show. Superintendent George McKerrrow was consulted in Madison yesterday, and agreed to change the date from Feb. 25 and 26. The canvass for premiums will begin tomorrow.

Edwin Fifield, who has leased the Lowell store, will take possession March 1, and he will delay the remodeling of the building until after the fair is over. The fair will continue on Tuesday, March 4th, one day after the institute has closed. A large number of prizes are already assured, and now that the dates are settled and the use of Lowell's store is assured, the committees can get to work.

Stpt. McKerrrow has promised to be here during the institute, and the best speakers possible will be secured. The cooking school will be an important feature, and a capable lady will be secured to superintend this branch of the work.

In the institute program dairying subjects will be given much prominence.

Personally Conducted Tour Through Mexico.

The Northwestern line has arranged for a personally conducted tour through Mexico, under the auspices of Mr. J. J. Grafton, the well known excursion manager. The party will unite at Chicago and leave there Tuesday morning February 2, 1917, in a special vestibuled train of palace sleeping cars, observation cars and dining cars, which will be their home for the entire trip. During the tour, which will consume thirty days, all of the cities and almost every place of interest in this wonderful country will be visited. To accommodate those who desire to remain longer than thirty days, arrangements will be made for the extension of the time limit of tickets. Illustrated pamphlets and full information as to rates, etc., will be furnished on application to agents Chicago and Northwestern R'y.

Constipation in its worst forms, dyspepsia, sick headache, biliousness and derangement of the liver are readily cured by DeWitt's Little Early Risers. These little pills never gripe. Small pill, safe pill, best pill. C. D. Stevens.

TIRED SALESWOMEN.

EMPLOYERS SHOULD BE MORE CONSIDERATE.

Interesting Statement by a Young Lady in Brooklyn.

In the vast retail establishments of large cities, many women are employed as saleswomen. Men formerly held the positions that

women now hold, and while women's organization is less strong than men's they are expected to do the same work. Their duties compel them to be on their feet from morning to night, and many of them, in a short time, contract these distressing complaints called "female diseases."

They occur irregularities, suppressed or painful menstruation, weakness, indigestion, leucorrhea, general debility and nervous prostration. They are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues and hopelessness.

In such cases there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles. The following is a sample:

"My dear Mrs. Pinkham:—After writing you, and before your answer came, I was too miserable to go to the store, and so lost my position. That was five weeks ago. I am now back again in my old place, and never felt so well in all my life. The bearing-down pains and whites have left me, and I am not a bit nervous or blue. Life looks brighter to me. I don't get tired, my temper is real sweet, and I could scream right out sometimes for joy. Your Vegetable Compound is my stand-by. You don't know how thankful I am to you for saving me from suffering. Every woman in my position should know of your wonderful remedy. I never saw you, but I love you for being so good to me."—Wm.—W. 6th Ave., Brooklyn, N. Y.

WANT VANDALIA ARREARS.

Indiana Legislators at Last Set About Getting \$1,500,000.
Indianapolis, Ind., Jan. 26.—The two houses of the legislature got together Monday on a scheme to investigate the Vandalia railroad company. Attorney-General Ketcham recited the entire history of the claim, and spoke of the many efforts that have been made to secure legislative action that might result in the collection of the debt. He said that there was due the state from the road at least \$1,500,000. An investigation will begin as soon as the joint committee is appointed. It is understood that the company will refuse to make the accounting demanded from 1847 to 1873. The house committee on rights and privileges of the inhabitants of the state recommended the passage of Representative Patterson's bill to prohibit the playing of football. The penalty is \$25 for the first offense and \$50 for the second offense. It looks as if the bill might pass the house, but it will hardly go through the senate.

Woman Saves a Train.
Grand Rapids, Mich., Jan. 26.—The Chicago & West Michigan fast train from Chicago was saved from wreck Saturday night by a woman with a red tablecloth. A horse had become caught in a cattle guard when the train was nearly due. Taking a red cloth from the table the woman ran through the storm to stop the train. She succeeded.

Joliet Streets in Darkness.
Joliet, Ill., Jan. 26.—Joliet streets were in complete darkness last night. At noon Monday the Economy Electric Light and Power Company's plant was discovered to be ablaze, and despite the work of four fire companies the main portion of the plant was destroyed, with \$150,000 loss; insured for \$49,000.

Grants of Railroad Lands.
Washington, Jan. 26.—Senator Pettigrew introduced a resolution providing that a committee of five senators shall be appointed by the Vice-President, whose duty it shall be to investigate the issue of patents for lands of the United States to the Pacific railroads and to the California and Oregon Railway.

Advice to Our Business Men.
Washington, Jan. 26.—It is money thrown away for our business men seeking foreign markets to load up the United States consuls with pamphlets and circulars and price lists. Says Consul Bartholow, at Mayence, Germany: "The Germans are for Germany and Germany is for the Germans. Protection for home products is their watchword. They are perfectly willing to spread out in every country in the world with their products but they want none here but their own. They want our dollar, silver or gold, but they do not want us to have any of theirs."

America Is in No Danger.
New York, Jan. 26.—Dr. Walter Wyman, surgeon-general of the United States Marine hospital service, has been making a special study of the black death, or bubonic plague, now raging in India, one of the deadliest scourges that ever afflicted the earth. In an interview he said the germ was easily killed, and there was no danger the plague could be imported into America.

Another Victim Added.
Clarion, Pa., Jan. 26.—Another death is to be added to the list of those who went down Saturday afternoon with the Pittsburgh and Western train which jumped the trestle at Paint Creek. The victim is Brakeman George Wise of Foxburg. Conductor Tonks, who jumped as the train was going over, is so badly injured that his case is considered critical.

Bolt Combine Broken.
New York, Jan. 26.—The combination of bolt and nut manufacturers has given up the scheme of uniform prices and each company will sell on its own terms. The indications are that the three associations will disband and in the future do business separately.

She Had Courage.
He looked deep into her soulful eyes. "Do you know," he said, slowly and impressively, "that scientists have decided that there is danger from poison in roses?"
She looked fearlessly up into his face. "I'll risk it," was all she said.
That was all that it was necessary that she should say. As he pushed his way through the circumambient atmosphere he knew that it wasn't necessary for him to do a thing but keep on buying roses or give up the girl.—Chicago Post.

After the Horse Trade.
"Now that you have bought and paid for the horse," said the man, with a self-satisfied chuckle. "I will tell you in confidence that it has only got two faults."
"Well, what are they?"
"When he is in the field he is very difficult to catch."
"Oh, I don't mind that; I'll soon catch him. What is the other fault?"
"Why, when you have caught him, he is not worth anything."—Tit-Bits.

A Consolation Gone.
"How's yer wife?" inquired one of the farmers who were coming into market.
"She's perfectly well, seems like."
"You don't seem pertickler pleased about it!"
"Well, I like 'er to inj'y hers'f. An' she do seem ter git a lot o' comfort out o' takin' medicine."—Washington Star.

IS HE "A GOOD ONE?"

MRS. DIXON, 68 Chatham street, Janesville, suffered with rheumatism eight years. Had been treated by many physicians and taken "sure cures" but constantly grew worse until she was helpless. Her case became well known as a hopeless one. M. Alden Morehouse, the New York Sp. Clairist, now permanently located at the Murdock Flats, North Franklin street, was called to see her a month ago. His friends advised him to refuse the case as it was incurable and could only injure his business. He did not fear such a result and at once began a curative course in nerve, sin and muscle feeding to prepare her system for remedies which are to follow. People then said: "If he can do anything for Mrs. Dixon he is a good one." After one month of preparatory treatment he had her permission to use all we are interested in for ourselves or for others, to call and see what improvement has already taken place and then answer for themselves the question, as above.

MISS WICKES TALKS OF HER STAGE WORK

EAENING HER OWN LIVING AT
HER CHOSEN PROFESSION.

**Says She Will Not Wed Again But
Will Devote Her Life to Her Chosen
Calling—Dislikes to Have Her
Pictures Shown—Will Go To
London.**

In cosy furnished apartments on the third floor of the Hotel Myers, Miss Florence Lillian Wickes was found this morning by a Gazette reporter, deeply interested in two lengthy letters received from her sister in Chicago. The company arrived this morning at 9:30 o'clock from Madison, and Miss Wickes was immediately driven to the hotel. She was suffering from a severe cold, contracted while in St. Paul, and found it difficult to talk this morning. She was confined to her room throughout the day in order that she might appear this evening.

"Yes, I have chosen the stage as my life work," she said this morning. "I do not intend to get married again, and as I am also obliged to make my own living, I intend to work my way to the top in my chosen profession. It seems rather queer to come to Janesville again after a two years' absence, and I would not have been here this time but my contract held me to it. I tried hard to go from Madison through to Chicago. I heard that I was to have a reception here, but I do not know who I would care to receive. I am not pleased over the fact that my picture has been displayed on the streets of Janesville."

Contrary to Orders.
"I gave strict orders that they should not be so used. When I think of the notoriety that I have received here, I dislike to have my photograph shown. However, I have no reason to be ashamed of for I have done nothing to be ashamed of."

Miss Wickes intends to leave next May for London where she will enter a new field of work. She now possesses over a thousand dollars worth of jewelry which she prizes because it is her own, and a goodly portion of this is used in the play.

"How is the old skating rink?" Miss Wickes asked as the reporter was leaving.

"Nothing remains but the board fence," was the reply, and Miss Wickes smiled.

Manager Mason stated today that they played to a \$180 house in Madison last evening.

The company leave tomorrow morning for Milwaukee, where they play at the Soldiers' home, and from there they "jump" to Indianapolis.

EMERALD GROVE PASTOR LEAVES
Rev. G. Hammond Resigns and Will Go to Brodhead.

Emerald Grove, Jan. 26—Rev. G. Hammond has accepted a call from the First Congregational church of Brodhead to act as its pastor. He will move from here in a few weeks. His resignation was read and accepted on Sunday morning, last, and the council called to dismiss him will meet Friday, Jan. 29, in the church, at 1:30 p. m. Emerald Camp M. W. A. will meet on Saturday evening of this week. These cold days make extra work for the milk haulers as well as for the butter factory. Sleighing is fair on the main traveled roads. Loaded teams on the cross roads find it rather hard pulling. Sunday and Monday were the coldest days of the winter. Twenty degrees below Sunday and 32 below Monday made sharp weather. It has been several years since the mercury reached this point. Many house plants and cellars suffered. Preparations are being made to fill the ice houses in and about town.

Robert Libburn is in the southern states, enjoying the sunny south. He will visit different sections of Georgia, Florida and South Carolina, and perhaps make some investments in plantation property. Call on Gillies & Jones for felts, overs, mittens or anything in hand or footwear. Had the night been more favorable, an overwhelming house would have been present at the public installation of officers in Emerald Grove camp M. W. A., which was held last Friday evening. As it was, a good sized crowd attended and listened to a fine programme, followed by the installation ceremony, which was new to nearly every one present. At the banquet, which was an elaborate affair, a few more than one hundred sat down, and enjoyed the good things which had been skillfully prepared for the occasion. The Woodmen's wives have won for themselves fresh laurels in the culinary art. The affair was pronounced by everyone a grand success.

BACK BONE BROKEN THE PROPHETS SAY

COLD WEATHER WILL END
SOON.

Thermometers Registered Higher Temperature Last Night—Engine To Answer All Fire Alarms To Thaw the Hydrants That May Be Frozen—The Registry.

Expert prognostications now say that that the backbone of the cold snap is broken and that the strain on the thermometers will be gradually eased off from this on.

Whether or not the prophets know their business, remains to be seen, but the official forecast for today and tomorrow, was "fair and slightly warmer."

Reports were received from the various places in the county that could be reached by telephone, this morning as follows:

Emerald Grove..... 34
Johnston Center..... 30
Beloit..... 30
Fulton..... 26
Indian Ford..... 24
Milton Junction..... 24
Edgerton..... 23
Evanville..... 22
Orfordville..... 22

In most cases these figures showed a temperature of from two to five degrees higher than was reported yesterday thus indicating that the "worst of it was over."

Precautions Were Taken.

Chief Engineer Spencer has taken all precautions during the snap. He has issued an order that the steam engine answer all alarms so that hydrants that may possibly be found frozen, can be thawed out. The engine now has steam up and will be ready for duty at a moment's notice.

"We are guarding against any emergency," said the chief when a Gazette man questioned him this morning. "At these times, when there is a possibility of frozen hydrants, a chemical engine would be to the fire department what a new hat would be to a young lady on Easter Sunday."

All trains were on time today, the railroad companies making an extra effort to avoid delays.

Thermometers about the city showed a higher temperature last night and today. Twenty-eight below was the lowest point reached, while night before last the lowest point was 33 below. At noon the thermometer stood at zero.

WORLD'S FAIR ECHO HEARD IN COURT

CARRIAGE WORKS COMPANY
SUES CHICAGO MAN.

They Claim They Furnished J. F. Smith With Vehicles to be Used During the Big Show, Which He Refused to Either Accept or Pay For.

The Janesville Carriage Works were today the plaintiffs in the Chicago courts in a suit against J. G. Smith, to recover an unpaid bill of \$2,500.

The case is one of long standing, and has been "on the docket" since the World's Fair. J. G. Smith is a Chicago dealer in vehicles, and during the World's Fair he purchased a number of wagons from the Janesville Carriage Works. The local firm sent him large shipments on different occasions, and received their pay promptly. During the latter part of the Fair, it is said, Mr. Smith sent in an order for a number of vehicles to be shipped at once. The firm complied with this order, but charge that several days after the arrival of the goods, Mr. Smith refused to accept them on the grounds that "he had not ordered them." The Janesville firm claims that the goods were held for some time, and were then returned in a damaged condition.

They now bring suit in the hopes that Mr. Smith may be compelled to accept the goods, or pay for them.

The value of the vehicles involved is about \$2,500. Sutherland & Nolan are in Chicago in the interests of the plaintiffs, and among the witnesses were Herman Bachholz and Bookkeeper Fred D. Arnold.

THE ICE HARVEST BEGINS NEXT WEEK

THE WORK OF MARKING NOW
UNDER WAY.

One Hundred Men Will Be Employed By the Two Companies—"Crop" Is An Excellent One and is About Ten Inches Thick—Gather Many Tons.

One hundred men will be furnished work within the next seven days by the Ferris and the Peoples Ice companies, so the cold snap has brought joy to the working man as well as misery.

The ice in the river is frozen to a depth of from nine to ten inches, and its quality could hardly be improved. The Peoples Ice company has had a crew of men at work removing the covering of snow, and the task of marking the ice was commenced today. Henry Tall, the senior member of the firm, stated this morning that if the present cold snap continued they would commence the work of cutting next Thursday or Friday and that they would need fifty men.

No help has as yet been engaged, but the company are set at all worried but what plenty of men will be on hand. Both the local ice companies will put in an extra supply this year, which means the housing of 10,000 tons of the frozen crystal.

The Ferris Ice Company report the ice as being in most excellent condition, and frozen to a depth that will soon warrant cutting. This company will employ as large a force of men as the Peoples' Company, and it is their present intention to begin the harvest the first part of next week.

A RUSE THAT FAILED.
The London Diamond Dealer Knew His Business All the Time.

To the private office of a prominent jeweler recently entered a middle-aged woman, richly caparisoned in furbelow and flounce. She held in one hand a diamond earring. With entire coolness of demeanor she said:

"I lost the fellow to this. Will you be kind enough to tell me what it will cost to obtain another exactly like it?" The jeweler eyed her rather keenly, and then said:

"Madam, where did you lose your earring?"

The effect of this simple question upon the woman was surprising. She was evidently unprepared for the query, and there was something in it that disturbed her.

"It makes no difference where I lost it," she answered, in a sharp tone. "What will it cost me to obtain another exactly like this?"

"Did you advertise for the one you lost, madam?" persisted the jeweler blandly.

"What has that to do with the matter?" she retorted in an angry tone.

"Well, madam," was the smiling reply. "If you advertise for the earring you lost you might recover it, and then you would not be placed under the necessity of ascertaining what it would cost to replace it. Advertise first, madam, and if you do not recover the jewel come again to me, and I will answer your question."

As he said this the diamond dealer politely bowed the woman to the door. "Why will women lie in such small affairs," said the jeweler wearily; "and why will nearly every purchaser of diamonds look upon the merchant with whom he or she deals as a rascal? That woman hasn't lost an earring. She has purchased a pair, perhaps on trial, and she will go to nearly every jeweler in London with that pretty lie and endeavor to get a price upon the stone. It is a magnificent diamond, and evidently came from one of our leading dealers, whom she insists upon believing is engaged in a scheme to rob her.

"The chances are that she will eventually get into the hands of some unscrupulous merchant, whom she can find even in big shops. He will tell her that the stone is off color and contains a flaw. He will show her a poor diamond of the same size as the other, and fix upon it a price which he knows is less than a fine diamond could be sold for. The result will be that madam will send her fine brilliant back in a rage, and take the inferior stone for twice its worth."—Pittsburg Dispatch.

MINING OF MICA.
The Principal Source of the Entire World Is in North Carolina.

"The principal source of the mica used by the entire world," said Thomas Padgett, of Dakersville, N. C., who is stopping at the St. James, "is in North Carolina, in the vicinity of my home. Mica is found there in all sorts of blocks, of various thicknesses and shapes, which can be split and resplit almost without limit, until it becomes the transparent pane of commerce. The material is embedded or scattered through the feldspar with which the surrounding mountains are mostly covered. The veins are found between walls of slate. It is blasted from the surrounding rock by means of dynamite, and is freed from all impure matter by miners with chisel and pick. From the mines it is taken directly to the shops, where it is split into thin sheets and trimmed into regular forms, which are then ready for the market, the price varying according to the size of the sheets. The average size will fit an ordinary parlor heater. In rare instances, sheets as large as twenty-four by eighteen inches are found, but there is seldom or never a demand for mica of this size, so the sheets have to be cut down. Most of the mines, as I have said, are exceedingly profitable, but sometimes one is found where the mica is so scattered that it would not be profitable to work. No money is wasted on such a mine, however, for an experienced mica miner can tell at a glance whether a mine will pan out all right or not."—Pittsburg Dispatch.

IS IT CURABLE?

A Question Often Asked by Those Afflicted with Piles.

Is a strained joint curable? Is local inflammation curable? Of course, if properly treated. So is piles.

People often become afflicted with piles and ask some old "chronic" who has always persisted in the wrong treatment and naturally he discourages them by telling them that their case is hopeless.

They in turn discourage others, and thus a disease that can in every case be cured by careful and skillful handling is allowed to sap the energy of thousands who might free themselves of the trouble in a few days.

Pyramid Pile Cure will cure the most aggravated case of hemorrhoids in an astonishingly short time. It relieves the congested parts, reduces the tumors instantly no matter how large, allays the inflammation and stops the itching or bleeding at once. Thousands who had resorted to expensive surgical treatment have been cured by the Pyramid Pile Cure in a number of instances persons who had spent months in a hospital under a pile specialist. It is a remedy that none need fear to apply even to the most aggravated, swollen and inflamed hemorrhoidal tumors.

If you are afflicted with this stubborn disease you can master it and master it quickly. This remedy is no longer an experiment, but a medical certainty. It is manufactured by the Pyramid Drug Co. of Albion, Mich. Druggists sell it at 50 cents and \$1.00 per box. It is becoming the most popular pile cure this country has ever known and druggists everywhere are ordering it for their customers.

HOBBS
Friends Offer Absolute Proof of the Merits of Dr. Hobbs Sparagus Kidney Pills.

We Publish in This Article What C. D. Stevens, Pharmacist, Corner Main and Milwaukee St. and a Well Known Physician Has to Say Regarding This Great Remedy

The verdict of the people must at all times be considered final. This old saying is a true one, and whatever the popular verdict may be in the test now being made of Dr. Hobbs' discovery for the cure of kidney diseases, it must necessarily be considered final. No appeal will be taken, and no subterfuge resorted to. Each and every claim made by Dr. Hobbs must be fully substantiated.

There are today in Janesville and vicinity alone hundreds of people who say that Dr. Hobbs' Sparagus Kidney Pills are indeed a grand medicine. They have good reasons for saying this, having themselves been either greatly benefited or cured by their use.

From a Popular Druggist, Janesville, Jan. 21, 1897.

Hobbs Remedy Co.: Gentlemen:—Every day brings endless inquiries from our customers as to the merits of your Sparagus Kidney Pills. Being familiar with the component parts of this medicine, we never have any hesitancy in recommending Dr. Hobbs' Sparagus Kidney Pills, as it is our belief that it would be an utter impossibility to combine in any preparation more virtue than what the formula shows they contain.

Yours truly, C. D. Stevens, Pharmacist. Experience of a Distinguished Physician, a Graduate of Jefferson Medical College, Philadelphia, in 1859, and an Ex-President and Present Member of the Delaware State Medical Society.

Milford, Del., Jan., 28, 1896. Hobbs Remedy Co., Chicago:

Gentlemen:—I feel that I would not be doing my duty to my fellow men if I should not give my testimony as to the curative qualities of Dr. Hobbs' Sparagus Kidney Pills in the following case, as anyone in Milford can testify. No one expected him to live. He was the sickest man I ever saw not to die. After an experience of thirty-six years in the practice of medicine, I can say that this case was most miraculous. You are at liberty to refer to me in regard to this case, and I will gladly answer any questions desired.

About a year ago I was called to see J. F. Kimball, who had been troubled with kidney disease for five years. Before he came into my hands to be treated he had been under the care of several physicians. They all pronounced his disease as incurable. On examination, I found the following symptoms to be present: Urine high color and scanty, a brick dust deposit on standing. By an analysis 40 per cent of albumen and full tube cast showing a destruction of the kidneys going on. Circulation affected, palpitation of the heart, swelling and puffiness under the eyes; also a swelling around the ankles, hands and abdomen. Pain of great severity in the small of the back, cramps in the legs, specks or motes before the eyes, ringing noises in the head, furred tongue, bowels constipated, loss of appetite, sick stomach and indigestion. All of the above symptoms showing Bright's Disease in its very worst form. I told him that I considered his case hopeless, and that he was beyond the aid of medicine. His friends and neighbors were daily expecting his death. His life became a burden to him. At this time, a neighbor reading your advertisement of Dr. Hobbs' Sparagus Kidney Pills, persuaded him to try them. From the use of the first box he began to improve. It would consume time needlessly to follow the whole course of his convalescence. After using six boxes of Dr. Hobbs' Sparagus Kidney Pills he was entirely cured, and is today a well and sound man, and is able to follow his avocation, without any return of his trouble.

I am a regular graduate of thirty-six years' experience in the practice of medicine. This man's cure was little short of a miracle. After demonstrating the curative powers of your pills in two cases, I shall prescribe them in all kidney and urinary troubles. I am independent enough to use any remedy that will relieve and benefit my patients. I am willing to acknowledge and commend thus frankly the value of Dr. Hobbs' Sparagus Kidney Pills.

THE A. RICHARDSON SHOE CO.

A Comparison in Shoe Leather

It is usually supposed that a good, first-class Shoe for Ladies must cost about \$4.00. The expenditure to that extent is supposed always to purchase as good a shoe as anybody could wish to wear. We have changed this shoe price for fine Shoes from \$4 to

\$2.85.

It's not necessary to pay \$4.00 for the best of Shoes.

Our Box Calf Shoe, and Our Dongola Shoes

at \$2.85 a pair will compare well with any \$4.00 Shoe you can find. Facts can't be disputed.

The Box Calf Shoe

is the best winter Shoe for ladies ever sold. We have put out more of them this winter than of any one make that we ever sold.

The Dongola Calf

is also a great shoe. It never sells for less than \$3.50 or \$4.00, yet we let them out at \$2.85.

'Tis the Cash Plan that does it.

People appreciate the low prices we are enabled to make. Our increasing sales tell us so.

NEXT SEASON'S GOODS.

Beautiful Fine Organdies, Lawns and Nainsooks—Charming Floral Designs.

Already have thin summer fabrics made their appearance in show windows and on shop counters, and they are exceedingly attractive both in color and design. The nainsooks and organdies are almost as fine and transparent as mousseline de sole, and, like that material, require to be made up over a silk lining. Fine satens may be employed instead of silk with good effect and has the advantage of being washable. Floral patterns are as much to be favored

BLACK AND WHITE COSTUME.

next summer apparently as they were last, but the designs are somewhat more branching and discursive. The tints are clear and delicate, and distinct stripes of black or color are much seen running lengthwise of the light or white ground on which the flower design is thrown. These stripes give character to the color scheme, which is sometimes so subtle as to be almost insignificant without some such contrast.

Grasscloth is again in evidence, and most of the new importations show black and white effects on the usual ceru ground. There are stripes, broken lines and small figures in black and white embroidery which are very pleasing. Black and white in partnership seem to gain increasing favor in all sorts of materials and garments.

For this new season are better liked, while silks, from the least to the most expensive, are to be found in it. Black satin embroidered with white is one of the newest fancies for gowns. Black lace, beading or embroidery over white satin for trimming is by no means a novelty, but is much worn still.

An illustration is given of a costume having a skirt of black and white striped silk. It is straight in front and has three godets at the back. The full bodice of mauve silk has a wide belt of violet velvet which fastens under a large bow on the bosom. Over the mauve bodice is a bolero of black velvet bordered with jet cabochons and carried down to the waist in two points in front, which are fastened with steel buttons. The revers of white silk, embroidered with black and edged with cabochons, form coquilles. The collar is of black velvet. The small sleeves are of black velvet also, with frills of white silk gauze at the wrists. The hat of black silk plush has a band of white satin around the crown, held by a steel buckle, and is trimmed with a cluster of black plumes.

JUDIC CHOLLET.

To have a plate rack just below the ceiling is a new idea for the dining room. Then, of course, it is strung full of handsome plates and, if one is so lucky, antique ones that have been handed down.

Women are now admitted into the New York Symphony orchestra to hold office jointly with the men and to have equal voice in all matters pertaining to its future welfare.

The question whether women have the legal right to vote in Maryland will be argued before Judge Phelps during the present term of the Baltimore city court.

It is said that the hair is to be done up in nets again. It is rather a trying fashion, but if the style demands it, why, of course it will be adopted.

The senate of Alabama has passed a bill allowing women, single or married, to practice law, when properly qualified, in every court of the state.

EVENING COSTUME.

Easily Altered to Look Fresh and New. Embroidery and Lace.

Ball gowns for women who dance are among the easiest costumes in the entire wardrobe to compose and to alter. A French model advises women who have a limited purse to supply themselves with

BALL GOWN.

three skirts of satin or taffeta of different colors, over which they may arrange gauze on mousseline de sole with varying effects. A few bows, flowers and some lace adjusted as trimming may be changed about and put in new positions. The drapery around the top of a low cut bodice may, when it is defaced, be replaced by a choux of ribbon following the line of the décolletage or by garlands or little bunches of flowers. Lace berthas are, of course, always in order. There are also variations to be made by means of wide and narrow belts, corselets, bretelles and boleros, the latter being composed of very little material for an evening bodice. The bolero is, in fact, the great resource for costumes of all sorts at present. Although it has been in vogue for some time, the favor shown it seems in no danger of subsiding. Nearly all bodices trimming has more or less of the bolero effect, hands, platings and frills simulating the shape when a real bolero is not employed. The latter is cut and slashed into all sorts of fantastic and unexpected forms and is loaded with more decoration than one would believe it possible to crowd in so small a space.

The picture given illustrates an evening dress for a young girl. The full skirt of white tulle hangs over a plain one of white satin, the tulle skirt being trimmed around the foot with three tulle ruffles bound with an edge of pink satin, a very narrow ruche of pink satin heading the top ruffle. The full tulle bodice is made over a pink satin lining, the round décolletage being bordered by three ruffles like those on the skirt. The short, full sleeves have two similar ruffles at the edge. The soft belt is of pink velvet.

FREE TO EVERY MAN

WHICH CURED HIM AFTER EVERYTHING ELSE FAILED.

THE METHOD OF A GREAT TREATMENT FOR WEAKNESS OF MEN.

Painful diseases are bad enough, but when a man is slowly wasting away with nervous weakness, the mental forebodings are ten times worse than the most severe pain. There is no let up to the mental suffering day or night. Sleep is almost impossible and under such a strain men are scarcely responsible for what they do. For years the writer rolled and tossed on the troubled sea of sexual weakness until it was a question whether he had better take a dose of poison and thus end all his troubles. But providential inspiration came to him in the shape of a combination of medicines that not only completely restored the general health, but enlarged his weak, emaciated parts to natural size and vigor, and he now declares that any man who will take the trouble to send his name and address may have the method of this wonderful treatment free. Now when I say free I mean absolutely without cost, because I want every weakened man to get the benefit of my experience.

I am not a philanthropist, nor do I pose as an enthusiast, but there are thousands of men suffering the mental tortures of weakened manhood who would be cured at once could they but get such a remedy as the one that cured me. Do not try to study out how I am afforded to pay the few postage stamps necessary to mail the information, but send for it, and learn that there are a few things on earth that although they cost nothing to get they are worth a fortune to some men and mean a lifetime of happiness to most of us. Write to Thomas Slater, Box 484, Kalamazoo, Mich., and the information will be mailed in a plain sealed envelope.
